RECEIVED

AUG 18 1999

I have been a resident of Nevada for ten years. I love living here. The first day I arrived I was so impressed with the mountains I wrote two poems extolling their beauty.

I am devastated to think that this unusual city would be used as a dumping ground for nuclear waste. This horrific idea is a further example of man's inhumanity to man. Please do everything in your power to prevent this from happening.

I am a paraplegic and this city has brought new hope into my life. I am paralyzed because the doctors I entrusted with my life did not care enough to look thoroughly at the myriad of tests I was subjected to.

Please try to make certain that DOE and Congress reexamine this situation.

Sincerely,

Gertrude Fuhr
